

## **WORLD PEACE**

BSN Student: Hanan H. Salih  
School of Allied Medicine  
Universidad de Zamboanga  
Zamboanga City, Philippines

Peace starts within ourselves and also we must have peace within our home. World Peace is a peace in the whole world that every individual wants to achieve. Many problems that this world is facing nowadays, and no one of those problems is the lack of unity of the people especially the people with different religions, political affiliations, different colors and races and etc. Because of this problem, world peace is not always present in this world.

I hope someday, world peace will be our hand and people with different attitudes would be united so that we can gain peace and if we can gain peace we can achieve the wellness and good life and avoid bad things and problems and safety would be achieved.
