

## **LACK OF JOB OPPORTUNITY**

**Isagani D. Berdon**

Universidad de Zamboanga  
Zamboanga City, Philippines

The new graduate student will hard to find a job because we have lack of government agencies and even a private company that where to apply a job. Here in our country we have a lot of degree holder people but they don't have a job. Other people will force their self to go abroad to find a job.

There are a lot of Filipino people working abroad to find job, they do this because of their family to support their daily needs and also to put their child to school.
