

THE RIGHT OF PERSON TO OWN A PROPERTY

Student
Universidad de Zamboanga
Zamboanga City, Philippines

We all know that we have this right to own a property for instance we want to build a house we must pay for the land in order to us to own a property. For this is my perception on having the right to own a property, though there are laws and regulation before owning a property, but then if we are capable to have it, then we are free to have property.
