

POLICE- MILITARY ABUSES

Student

School of Criminal Justice
Universidad de Zamboanga
Zamboanga City, Philippines

In our country, many police and military were abuses because of their power to the Government. They say that everyone in the country will control them, that's why some officials of the Philippines abuse their power because they are in the higher position like for the Ampatuan's case, many died in the massacre in Maguindanao because Ampatuan used his power and his high position to dictate and to force his men to kill somebody or kill the Mangundadato clan because he doesn't want to have competition between Ampatuan and Mangundadato, therefore, the killings happened and after now the case was not close and does not end up because there are many Ampatuan's men that was not caught yet and also their Mayor was very comfortable in jail because he was treat very special among the prisoners. He was treated well because he can control his men and also other police because he has money to buy them and to give a condition to them to do his words. Ampatuan has many men, either police and also many of them were officials of the Philippines, they called the Law enforcement agents that promise to make or to maintain peace and order in the community but why that they do those brutal killings? This is because of money, lots of money given by their Mayor. In that case, the police involve here they create a bad influence to the teen agers and also to their co-police in other area and because of this most teen agers will not believe anymore that it's the police who are protecting our country.

In other instances, other police and students who will also become a police someday will do a good example to our country and to prove that not all police is bad, do the right one to raise the importance of law enforcement in our country. I believe that many of our law enforcers have a good attitude regarding their work, make change to our country and make our life be on harmony and have no fear in police officers. Now we have a new President in our country we must believe that something will happen and something will change in our nation. I believe that something will do good and not a bad one and also our President will do such good things so that his senators and other administrative staff will not do anything that is contradicting their positions.

Starting now, we are like a new born for we have new president and a new country. Always keep our country peaceful and no killings and no abuses of power because this situation will affect the life of many people. Let us remember that this is our country, love it and care for it because if we don't something will always be on because if we don't, something will always be on yesterday, let us think that there will be a tomorrow to change the things the bad officials has done and also be a good citizen in the community wherever you are. Let us change the wrong deeds of police and military that abuse their power, remind them to change their attitude and love their country because this country is our life because we are here to live and not to destroy it.
