Universidad de Zamboanga
Zamboanga City, Philippines

In my opinion, I choose the effect of Police and the Military Abuses in our society because some of the police or military they are not performing their duties, some of them are involve in the syndicates so that some of the police or military who are assign in some of the province they are the one also committing a crime and some of the news that police and military they just kill each other that's why we can say that the head of that crime investigates that some of people also knows the of the wardens of their offices are the mayor's or other officials. The officials are also given money to perform and act the activity like in the elections some of the officials are also making money out of it, the mistakes are what is the duty and to protect the people? The extrajudicial killing on its property and also in my opinion the police of some of the province are also involve in the kidnapping and some of the victim are told that they saw the one who is involve in the police officer and so that other people said that police are corrupt to its beloved country. As we have known the last time on the news, one of the trapcome police was caught on act by corrupting our society. That way the military and police are abusing our community and as I said our President Noynoy Aquino about the car serene and other vehicles on using it. They are just pretending just an officers, that's why some of the new officres of police are affected of their abuses but as we have see right this time, there are officers that are not physically fit because they just sit down and doing such rotunda in the city , I saw one of the police officers is using the car of a police patrol car as a service of their family that is not properly used because patrol car is for official used only and that is in red plate. Also some of the police are asking for alms to our public drivers and they just amnestying.
