At first, regarding human violation, the people who do not accept some bodies advice about studies. Especially the uneducated people who are abandon by their parents. And most of specially, Human without "GOD" in life and do not love and to know first God. It is one thing a very big violation for human education.

Secondly also, committing any bad habit, crimes, using drugs, not obeying or disregard our government law. Destroying environment and also to do not following and to disregard the parents discipline and good advices.

Usually or naturally people needs education not to become innocent. For the goodness and for the benefits of human of their future. Practically even though where, Education is important. So, to avoid violation we have to follow any good rules and regulations whether in school or government implemented law. Because, As far as i know as long as still living needs education.
