

WORLD PEACE

Danduh, Novelina

School of Allied Medicine
Universidad de Zamboanga
Zamboanga City Philippines

For me peace is freedom from war or a strife public quite order and security. World peace begins in every individual us. We must know how to handle as one.

As of now, I observed to our country we have no longer peace. Many people will trouble to one another because without peace come out to his or her mind is we have so many changes in our country one of this:

- Change from hated to loved;
- Change from greed to giving;
- Change from selfishness to selflessness;
- Change from a pathy to action;
- Change from jealousy to joy over someone's accomplishments and;
- Change from fighting to peace.
