World peace is not so easy to achieve... not as easy as what we thought it would be..We might blame our leaders that they are the reason why we can't obtain peace in our own country.... We don't have to blame our appointed leaders. But, *we*, ourselves we're also involved .. just as what Mr. Richard Goode Founder, “2 Billion Voices for Peace” project, in Australia said “*Peace is a gift, It is a gift we give to ourselves, And then to each other.*” We can't possibly obtain world peace if we can't even have peace in us.. Why won't we try this ... *add* peace in ourselves, then *multiply* them to others... and let's *spread peace* throughout the world ! ..

“*Most software today is very much like an Egyptian pyramid with millions of bricks piled on top of each other, with no structural integrity, but just done by brute force and thousands of slaves.*”-(Allan Kay) . I found this quote while i'm researching about software's and programming.. and when I saw and read it... world peace, pops out of my mind.. I thought that countries are just like the pyramids in Egypt, *piled up... the bricks that we're piled up on top*, are the *strong countries*, and that the other bricks that we're *piled below*, we're the *independent, and poor countries... as slaves...* what I am trying to say is .. how could we get that *world peace* if we're *stepping each other*? If we want *always to be on top*? If we want to be *declared as the most powerful country*? ..

We have to help each other, stop building *barriers*, but build *bridge* insted... let's build a bridge, and *connect* each other.. This is the *key* to *open* the door that leads to *world peace* that our forefathers aimed to reach.. .

Why are we making weapons? Do we want to have: World Peace? Or World War.. come to think of it..

1 Thessalonians 5:15

Make sure that nobody pays back wrong for wrong, but always strive to do what is good for each other and for everyone else.

1 Peter 3:11

They must turn from evil and do good;
they must seek peace and pursue it.
