ZAMBOANGA CITY, PHILIPPINES

We encounter the word “PEACE” in our daily lives as we hear it often and see it promoted everywhere. But what comes into our minds as we meet that word is that people don’t really care about it at all because they tend to think there’s no use and it’s hopeless to wish for a WORLD PEACE. You know why ? simply because of the many horrible things that are happening all across many countries. We hear several bad news over the radio and T.V. stations almost every day. There are suicide bombings ; the feud between Israel and Palestine trying to overcome territories ; the most tragic unforgettable Twin Tower attack in USA on September 11 ; the war between Lebanon and Israel and so much more. These terrible phenomenon experienced all over the world are what we never thought would be possible. And it’s so sad to know that there are people and countries having these kinds of fights and opposes with each other and we hear news about several innocent people getting involved. Their houses turned into ashes ; they can’t sleep every night as they are trembling hearing those loud explosive bombs thrown everywhere and what’s more worse is that others end up to be dead. So much blood had flowed and lots of buildings and properties got wasted. How brutal and pitiful!

Now, the big question that is bugging in the minds of most of us is that why are these actually happening to us ? I think the reason behind it is that there is something missing that is so significant to each and everyone. Which is – PEACE. Considering this, it’s about time for us to practice PEACE. The best time is NOW. But how do we attain PEACE ? well of course first and foremost, we need to practice it on ourselves and build PEACE within us. If everyone can do this, we could make a DIFFERENCE. There would be no more bloody fights to happen. People and countries would become friends and not enemies anymore. We share to other people what we have and give love on one another as we learn to accept what are their identities and personalities. Isn’t it wonderful to think that there will be no more blood and tears to flood ? Let us promote CARE and LOVE and of course these two will not be complete without PEACE. We all help and work hand-in-hand and surely we can build up a WORLD that is filled with PEACE and which every single person will benefit from.
