Everyone... every women, every man... all people of all faiths and all races must find a way to embrace each other's differences, and search for compromise and a way to co-exist. The alternative is an unthinkable future for our children. What can be done? The solution depends on us all, and it starts with you. Peace is the mother of progress. Without peace a nation cannot make any progress. So peace is ever desirable. But now-a-days if there be no peace, the whole human race will be destroyed. Because modern war involves atom bomb and hydrogen bomb. So, war should always be avoided for world peace. In order to achieve a world without war and hostility, you need understanding and respect. Without understanding and respect, we have nothing but a world full of intolerant individuals, each concerned only with their own beliefs and ideals. We currently live in a world full of selfish people that believe that their way is right, and anyone else's way of thinking that differs even slightly from their beliefs is wrong!

the concepts of understanding and respect relate to many events that take place in our everyday lives. If we just take a closer look at what's going on and try to understand and respect each other's views when it comes to the decisions we make everyday, the world will definitely be a much better place and the equation of peace will be complete, or at least given a chance to succeed! World-peace is absolutely necessary. The public opinion of the world is in favour of lasting peace. it is hoped, world-peace will gain ground. Long live world peace.
