World is for everyone that is given by our almighty God. Every citizen of the nation wants their leaders to insert more effort to advance the possibility of world peace. Everyone is hoping for a world without conflict, a world without war that will kill life no more. Everyone is hoping for the peace to come through their life, peace can only be possible if only people will throw out their pride and unite with everyone else, and accept that everyone is not the same, that everyone is deferent from each other, that each one of us are unique in our own way. People should respect each other and understand each one. Peace is must be brought to our life and let us start it by destroying the walls that block the light of peace to come through our life. Let there be no war on earth, let's start to change our bad habits of killing people, let everyone be free from the worries of war and conflict. Let us be enlightened by our God and be more a responsible individual.
