WORLD PEACE

By:Maria Lianne L. Ramirez

Bachelor of Science in pharmacy

School of Allied medicine

Universidad de Zamboanga

Zamboanga City, Philippines

Century's had passed different countries all around the world fought for their freedom. Until time came warring countries worked hand in hand for world peace.

World peace is important not only for every country around the world, but also for every individual. We must create our life without interference, be treated fairly and equally. Because world peace is all about freedom, peace and happiness among and within all nations and all people.
