SCHOOL OF ALLIED MEDICINE  
UNIVERSIDAD DE ZAMBOANGA  
ZAMBOANGA CITY,PHILIPPINES

World peace is a kind of peace that is most important in all other peace. Because world peace contributes a higher effect to people, nation, and to all other country. I admit that world peace is impossible to obtain. Maybe because of their religious or political beliefs are different. Another reason also is maybe because of the different cultures that this world has.

But for me, if people just do practice this kind of behavior that we called peace, we can really achieve this kind of a great world peace that me and also other people wants. Because world peace can contribute an understanding and start of having the loved in each one of us and to all other people that we everyday meet in our daily lives. World peace brings the unity to all other nations, country, and to this world..
