What do you mean by world peace? Is world peace help our world peace? how world peace help our world especially in war between two countries? This are all the question that bare in the minds of many people and particular with me. Peace is a freedom of quarrel and disagreement .The world is circle and it composes all thing where the man live and die. This some kind of detail can help to give the appropriate answer of all question of the people. The peoples wants answer for what is the meaning of world peace is.

These is where the people or humanity cooperate to each other and giving each other and loving each other.Theres no war and no curruption were being done and thats the real meaning of world peace.Through world peace no more will suffer and cry or die because it will help people to relate what is good in world peace if they are willing to accept world peace.I wanna say,that we need world peace in order to make a peace in these world.
