Peace is important to us because without peace we risk destroying the world and also without peace many people find themselves in trouble with others because of their inability to control themselves.

Peace comes from the heart of every man, woman, wars go on because the greater population focuses on war even in the name of peace if they focus on peace, lived peaceful lives and give consideration, appreciation and respect.

Peace is very important to us because it is the way to encounter people and if there is peace the world will be a much better place to live.
