Zamboanga City, Philippines

World peace is a nice word to hear. All we know as an individual we need to have a world peace here on earth. All people need peace to have a healthy, happy and enjoyable life while living on this earth.

To accomplish world peace we need to unite all people living in this world especially those who hurt us. Like the terrorist. We all know that terrorism is one of the worst problems in this world because they are the ones who made our world and country miserable. They kill the innocent people because of their personal interest.
