### **“Human Rights”**

Human rights are rights inherent to all human beings, whatever our nationality, place of residence, sex, national or ethnic origin, color, religion, language, or any other status. We are all equally entitled to our human rights without discrimination. These rights are all interrelated, interdependent and indivisible. Human rights also mean freedoms of individuals or groups.

Human right we have to respect the rights of the human, the best example is in the hospital. Because as far as I observe particularly in the General Hospital in Zamboanga. Almost all the patient in that hospital was violated their rights.
