

PEACE AND DEVELOPMENT

Imao, Arnur Qhaizer K.
BS RadTech
Universidad de Zamboanga
Zamboanga City, Philippines

The nature of peace is form the human around. Development of peace is the people only who can do, not things and animals but people who will make a peace and also a war. There is so many war past in this world, many innocent people died because of the clashing of the two companies in a war. We do not need war; we should do it a good speech. What is the root of the problem, a small problem it can be bigger and become super war! We should know what is the root of the problem and to solve the problem so it will not become big problem to bring a peace. Development for peace is to solve problems always, be friendly, honest, unity and be peaceful. Peace is not something you wish for; it's something you make, something you do, something you are, And something you give away. Peace is not merely a distant goal that we seek, but a means by which we arrive at that goal.
