Peace has always been among humanity's highest values--for some, supreme. Consider: Peace at any price. The most disadvantageous peace is better than the most just war. Peace is more important than all justice. I prefer the most unjust peace to the justest war that was ever waged. There never was a good war or a bad peace.

The peace means freedom from war, or any violence. Like for example the flag of Philippine there is war when the red side of the flag is raiser upward, so, if the blue side is up it means is peace. The other meaning the peace is a "quiet", quiet it means the Philippines is peace. I hope the government will do their responsibility.
