Universidad de Zamboanga
Zamboanga City, Philippines

World peace for me is the way of loving of its other. It is the most important to as an individual person. If you have peace in our self we can't do what we should I do and as a person I would like to contribute our peace by cooperating and sharing ideas to other. We can't promote peace to our countrymen by helping them. As a whole peace is the important to the human being. Peace also expressing our feeling to. Peace is the faith of individual if you respect the faith of it's we can promote peace in our life especially for the sick of God.
