"World peace" is one of the human being really wants, not only in our country, but in whole world. I know some of our leaders are greedy in LAND and MONEY and they don't even think about others and that's one of the reasons the war starts. This are one the examples of leaders that we shouldn't follow. I know that the WORLD PEACE is very hard to achieve but we can try and try and never give up and I don't think there's wrong in it, We should come up with a plan and recruit some people that we can trust to spread the word "WORLD PEACE" because if we are not going to do something about this nothing's going to happen, and we should stand for it...PEACE TO ALL OF US!
