The greatest thing in life is internal peace, external peace and global peace! Peace is the key ingredient to Happiness. Peace within means peace without. Learn Peace - Teach Peace! Be the change you wish to see in the world. A change in perception leads to a change in attitude, which leads to a change in behavior, which leads to a change in the world. There are many ways to promote peace in the world but perhaps the best way is to promote it within ourselves. Peace is a gradual and wonderful event that occurs because compassionate people are inspired to help others discover the joy of peace! Helping others also has the direct effect of increasing our personal peace and well-being, but this is merely one of the *many* bonuses that come from sharing our kindness with our fellow human beings. Did we mention that is better to give than to receive?

Peace, like reading, writing, mathematics, drawing, emotional intelligence and enlightenment ("understanding/comprehension/compassion/meditation/intuition"), are learned skills that improve our knowledge, maturity, health, happiness and longevity. Peace is probably the most important lesson we should learn during our lives and the sooner the better. The advent of the World Wide Web may just provide the boost in knowledge & peace humankind has been waiting for. Improved communication may be the difference between extinction and survival. Through knowledge, Peace will evolve. Knowledge is power. Knowledge combined with enlightenment leads to wisdom. Wisdom *is* Peace!
