Universidad De Zamboanga  
Zamboanga City, Philippines

What do you think our world really needs? Generally saying, it's World Peace. It is what every human being highly aims for.

Nowadays, every country is truly facing different predicaments. It can be with regards to its people or government. We can't prevent this kind of events because it really happens in reality. Even though we can see that our entire world is already in a big need of unity, yet some of us still don't care enough. Some don't even think of ways in helping how to overcome these troubles or problems because not all people are concern for peace.

Honestly, we can't implement world peace without its people starting it. Yet, as we can see, only few men in the world are cooperating for a certain purpose. Some would just mind their own business rather than go out and help their country. As a steward of our own living creation, we must all wake up and begin to rise up our world. All of us should start to have a change and choose the pathway leading to harmony.

We actually lack of peace in our world and that is no wonder why we always experience a variety of conflicts. To be able to come up with oneness, let us remember ceaselessly that we should start it on ourselves. Welcome change and leave the old permanence. We must all know that there is no way to PEACE, because PEACE is the ONLY WAY.
