Actually for me human rights are rights and freedoms to which all humans are entitled and actually regarding in human rights we all know that many people are abusing. it is one of the example of human rights it is the child abuse is another form of human rights violation, where children are forced and violated physically, mentally as well as sexually. Child labor is a human rights violation that takes away the freedom of being a child from a child. There is nothing more sinful than taking away or denying the right to education from a child. Workers toiling under harsh conditions and not begin paid their fair remuneration. Low wages, poor working conditions and in humane treatment melted out are also some of the human rights violations. And we all know this is the well noon against human rights it is every election. The right to vote .We all aware of this one statement that comes up often during an election. There are many who are aware of the right of 'choose not to vote' and those who are not aware, choose to remain ignorant. Anyways, the point here is, there are many rights conferred to an individual from the minute one is conceived in the mother's womb.
