Zamboanga City, Philippines

Civil rights is played an important role in our everyday life as we walk in the road.

Civil rights is a freedom to voice out; freedom of press; just like what happened to those media and people were killed in magindanao they are innocent, but still people are those in power doesn't think twice to do such thing like that.

Last day I watch the news in "tv patrol" a special child were criticize by the security guard of that certain school were that special child studying.

Government should solve this problem in our society.
