Human rights are universal, indivisible and interdependent. Human rights are what make us human. When we speak of the right to life, or development, or to dissent and diversity, we are speaking of tolerance. Tolerance will ensure all freedoms. Without it, we can be certain of none. Our country was founded on the basic idea that all man and women are created equal with liberty and justice for all. We must respect and preserve the rights of all, for when the rights of one are threatened the rights of all are diminished. Human rights are to be respected and preserved if we are progress as a society and as a people. Human right are those rights which are inherent in each of us by virtue of the fact the we are members of the human species that made by GOD.
