

## **“Peace and Development”**

**Nur-shimar B. Zapanta**  
School of Allied Medicine  
Universidad de Zamboanga  
Zamboanga City, Philippines

Peace for me is, loving one another, showing once affection to others and sharing. It begins with love, appreciation and being cooperative. As a student I apply something to help my co-student, like being honest with them and show respect. In my society be cooperative in every occasion being held in a Barangay. Being in peace is having a clean conscience it's nice to feel peace in the heart. In this world we must help our society to be in prove, of course without the help of the government there will be no development, it just be a dream for us citizen a plan for tomorrow. Respect one another even what Culture, Tribe and religion we still have to show that someone is important even though where she/he from. We must work together to help developing our country. People are a big contributor to our development. Peace and development, with peace there will be development for us. Peace must start with us.
